Exploratory DEV and shared-server CPU; no phone or independent-test result
DEV quality: three videos, both seeds
RGB PSNR (dB, higher is better)
GT-residual temporal error (lower is better)
CPU cost: fixed 480 x 854 workload
RGB PSNR (dB)
Resident CPU pipeline ms/frame (lower is better)
Faint quality points: individual seeds; bold: mean. CPU bars: all six run averages, not confidence intervals.
