R41 matched FP32 forms: same data / updates, 4075-parameter deployment
Pale points: individual seeds; solid points: mean. Post variants retain history and flow.
Synthetic DEV: 3 sources / 6 conditions
Paired real ND DEV: 4 sources
RGB PSNR (dB, higher is better)
Reference-flow temporal error (lower is better)
Matched Slim FP32 / raw
Matched Slim FP32 / finite .5
Matched Slim FP32 / recursive .5
Expanded FP32, folded / raw
Expanded FP32, folded / finite .5
Expanded FP32, folded / recursive .5
