R19: fixed current observations, known static correspondence, 64 independent pairs per condition
Two reused training images / two photon levels; standard pre-averaging reference, not real-video performance or novelty.
rho=0: input averaging minus current PSNR
rho=0: input averaging / current variance
rho=0: learned history minus current PSNR
rho=0.9: input averaging minus current PSNR
rho=0.9: input averaging / current variance
rho=0.9: learned history minus current PSNR
